

RGS Gurukulam – Who are we?

Situated in Dumka, Jharkhand we are an educational institution for the dropout tribal kids, for whom education is the only ray of light and future hope. We at RGS Gurukulam, strive to create a unique environment that goes back to the ‘Gurukulam’ way of education – which is the very root of the ancient education system of India. We are also having teachers from Finland visiting and helping create a unique education curriculum which blends Finnish education style with India’s Gurukulam way of learning.

Why are we different?

When you visit Dumka, you know that the kids are not as modern as the urban cities and the light of awareness is still to reach here as many tribal children mostly drop out of school at a very early age. RGS Gurukulam brings a ray of hope to all these tribal children in the following ways:

- Gurukulam style of teaching following the very roots of Indian education system as mentioned in the Vedas
- Yoga classes and free Vedic art classes to inspire creativity in children
- Volunteer teachers from Finland visit the institution to help design a curriculum that blends Finnish education style and Indian system of education.

RGS – The ‘Gurukulam’ Way

We at ‘RGS Gurukulam’ patronize the Gurukul system, which is an ancient learning methodology where the Gurus train their students with meditation, yoga and other standards for a overall character, personality and spiritual development of a child. Our main motto is to help provide a wholesome education for the tribal kids for whom education can become the brightest ray of hope.

Yoga, Arts, Spirituality

With education, RGS Gurukulam stresses heavily on Yoga, Vedic Art classes and meditation classes to inculcate an overall personality development for the tribal kids. Yoga sessions are conducted every day in the morning.

Cleanliness is Godliness

The students clean the campus and school premises periodically and maintain hygiene to the fullest. We inculcate these values right from the beginning.

RGS Gurukulam – Key Pointers

1. Project DURGA – A program to take care of neglected girl child in the surrounding tribal area. These children are adopted by RGS Gurukulam and provided the light of education
2. Sponsor a Child – Many poor children are adopted by families in Finland who are helping to support their education
3. A computer training institute which gives the modern education to the tribal kids.
4. Healthcare programme enables medical facility to the children like free vaccines, routine health check ups etc.
5. Reiki learning provided to students, so they can heal and treat patients as well.

Our Vision -All darkness shall fade with the light of right education!

Why we need support?

RGS Gurukulam is essentially operated by an NGO (a unit of Shatan Ashram) and is currently supporting higher secondary education for tribal kids. There is expenses that are needed for day to day operations, teacher's salaries, kids stationeries, bags, mid-day meals and much more. We are spiritual people on a education journey who seek support to materialize the Gurukulam system of education back in India, starting from Dumka and spreading across slowly.

How one can become a part of the RGS Gurukulam dream?

We need your support in making the Gurukulam dream a bigger reality. As of now, any financial assistance by sponsoring a child / teacher / curriculum will be highly valued for. More details at <https://rgsgurukulam.com>
